

The Council on Patient Safety in Women's Health Care

Safety Action Series

Join us on Thursday, August 28 at 11:00 ET for

Quantifying Blood Loss

Join us on **Thursday, August 28**,
for the August Safety Action Series!

This session will be presented by

Renee Byfield, MS, RN, FNP, C-EMF, Nurse Program Development Specialist at the Association of Women's Health, Obstetric and Neonatal Nurses and **David Lagrew, MD, FACOG**, Medical Director of Physician Informatics & Chief Integration and Accountability Officer at MemorialCare Health System.

This session will:

- Discuss quantification of blood loss (QBL) for every woman who gives birth.
- Explore the evidence related to QBL versus visual estimation of blood loss (EBL).
- Identify the benefits of successful QBL including early recognition of potentially life-threatening hemorrhage.
- Discuss methods used to perform, calculate and document QBL.

An open Q&A session with Ms. Byfield and Dr. Lagrew will follow.
