### Substance Abuse Committee Toolkit Discussion

Committee Goal: Organizing a toolkit that can be utilized by providers throughout the state.

#### Toolkit Ideas from the group

Consistent broad-based policy- Testing/Screening

Adopt a toolkit that can be used 'off the shelf'

a more standardized approach.

Understand the patient experience side.

Collaborating with the community

Consider getting someone involved for regulatory information, such as a lawyer.

Healthcare for ALL

Health Law Advocates

We agreed that there will be three sub-committees, prenatal (community and inpatient), intrapartum, and postpartum. Dr. Iverson will organize the topics to address in each sub-committee. Committee members will join at least one group, and will help write and edit a draft of the toolkit. Dr. Iverson will insure that the material flows appropriately through the document.

**Next Steps:**

Individuals will be emailing Jack Mourad at [Jmourad@marchofdimes.org](mailto:Jmourad@marchofdimes.org) to join a particular group in the subcommittee group or adding other colleagues or friends that might be interested in joining. We will begin to collect and collate information from the committee members for creation of the toolkit.
